Identity Protection

Due to the amount of information we share online and over the phone, identity theft is a crime that has spiked in both frequency and severity over the last decade. Cyber-thieves illegally collect personal information and use it to commit fraud.

The average financial loss per identity theft incident is almost \$5,000!

ID Commander offers most cost-effective and secure coverage on the market. Not only will ID Commander protect and monitor any suspicious activity associated with your identity, it provides full restoration in the event of a breach, free anti-virus computer software, and it promises to guard your home Wi-Fi internet connection.

Additional features with your membership include:

- Identity Surveillance Monitoring and Alerts
- Social Security Monitoring and Alerts
- Change of Address Monitoring and Alerts
- Identity Restoration Services
- \$1 Million Identity Theft Insurance Policy
- Interactive Dashboard
- 24/7 Lost Wallet Assistance

Nationwide Savings

In today's economy, creating balance between time and money is a challenge that demands constant attention. By adding value to your dollar, FunVantage provides tools for employees that will enhance any budget.

FunVantage, designed to benefit today's employee, offers a variety of exclusive discounts to stores and retailers that you already know and love.

With over 325,000 locations throughout the U.S., and with savings of up to 50%, you'll enjoy a noticeable change in the way you shop, as well as an increase in the value of your dollar. Additionally, FunVantage offers discounts for traveling, car rentals, movie tickets, sporting events, restaurants, and much more. You'll save more each month just by putting your membership to use!

Monthly Membership Rewards include:

- Restaurant.com Gift Certificate
- Free Companion Airline Ticket
- Movie Tickets as low as \$6.50 each

Cloud Backup

We rely on computers to store our files securely and expect swift access to our data—but when data is only stored on a hard drive, it is susceptible to deletion by hard drive failure, theft, and power outages. File Security Center securely backs up all your data online, creating 24/7 access from anywhere.

Backup

State-of-the-art encryption, cross platform support, automatic backup, historical versioning, and retention of deleted files for as long as you may need them.

Sync

Easy, flexible, and secure solutions for making sure all of your files are in constant sync across all of your tech devices and mobile devices.

Share

Distribute all file types to friends, family, or colleagues by creating share groups. These private share groups allow members to share any type of file at all times.
